About the Authors

Kalli Dakos has been delighting her readers with poetry since the release of her best-selling book, *If You're Not Here, Please Raise Your Hand*. She has written six IRA/CBC Children's Choice Selections. A former teacher and reading specialist, Dakos taught at Sir Alexander Mackenzie School in Inuvik, Northwest Territories, Canada. She has returned on author visits to encourage the children to write about their fascinating lives above the Arctic Circle. This book was inspired on one of these trips, when "recess in the dark" was chosen as a favourite writing topic.

Erin Mercer is an up-and-coming children's book illustrator currently living in Toronto, ON, Canada, where she also produces greeting cards and fine art for artisan markets. She has even worked for Canadian video game studios!

Her colourful, whimsical aesthetic focuses on characters and storytelling, and she loves to inject humour into her work. She mixes traditional and digital media, merging her background in fine arts and concept art. She enjoys an active lifestyle, cooking, attending live theatre, and travelling, all of which influence her artwork.

Best Reading Phonics is a reading program consisting of 20 books and a teacher guide. Each story helps children aged 4-6 learn letter sounds, and sight words through story reading and fun activities to establish a strong reading foundation.

In addition to the teaching tips in each book, there is a Teacher Guide book in which group and individual activities are recommend. The **Best Reading Phonics** program is developed by Cathy Jackson, who has dedicated her teaching career to helping children become successful readers. The illustration is done by Graham Ross. The program is short and effective, and proven successful.

About the Author

Cathy Jackson has enjoyed teaching a variety of grade levels throughout her 34 year teaching career in Canada, Wales, and Scotland. That experience impressed on her the importance of encouraging a joy of reading and building a strong foundation in reading skills. She created stories and language activities that developed into a reading program, **Best Reading Phonics**, to meet her students' needs and enable them to achieve success in stages.
