

# 1. Let's Line Up

Okay kids, let's make a line.  
You stand here, and you stand behind.  
One, two, three and four.  
Count them, count them,  
Let's add some more.

Five, six, seven and eight.  
What a line! It's nice and straight.  
Nine, ten, add them in.  
Now we have a line from one to ten.

First, second, third and fourth.  
It's another way to count.  
Fifth, sixth, seventh and eighth.  
Ninth and tenth, you are doing great!

## Let's Line Up

Okay kids, let's make a line. You stand here, and  
you stand be-hind. One, two, three and four. Count them, count them,  
let's add some more. Five, six, seven and eight. What a line! It's  
nice and straight. Nine, ten, add them in. Now we have a line from  
one to ten. First, second, third and fourth. It's a - nother way to count.  
Fifth, sixth, seventh and eighth. Ninth and tenth, you are doing great!
